

FEES – MICROFLUIDICS CORE FACILITY
(Effective on April 1st, 2021)

| PLATFORM ACTIVITIES | Internal ^{1,2} | Academic ² | Industry |
|--|--|-----------------------|-----------------------|
| Consultation service and quote preparation | Free | Free | \$120/hour |
| Microfluidic devices: - Microdissected tissues (MDTs): 25 or 32 wells - Spheroids: 240 wells <small>³ Preferential rate applied when using the core facility services</small> | Preferential rate ³ \$15-17.25 MISOChip Inc purchase \$28 + tx | (see MISOChip Inc) | (see MISOChip Inc) |
| With service (consumables not included) | | | |
| Tissue Chopping/ Fragmentation | \$32/tissue | \$50/tissue | \$110/tissue |
| Preparation of devices for the culture of MDTs or spheroids, Microdissection, Loading of devices and Fixing within devices | \$29/hour | \$48/hour | \$105/hour |
| Culture/Treatment of MDTs or spheroids in microfluidic devices | | \$48/hour | \$105/hour |
| Paraffin embedding of MDTs (price varies according to the number of blocks desired) | From \$21/block | From \$33/block | From \$72/block |
| Self-service (consumables not included) | | | |
| PDMS device manufacturing (includes consumables) | \$1/hour + \$0.40/g of PDMS | | |
| Rental of equipment for microdissection and loading devices (consumables not included) | \$10/hour | \$20/hour | |
| Paraffin embedding | \$50/experiment | \$80/experiment | |

¹ The internal price is only applicable when the service is paid via a CHUM internal account, unless previously approved by the CRCHUM finance service.

² Service and minimal training free of charge during the first two years of the Microfluidics core facility for internal and academic clients.

The prices are subject to change without notice.

| TRAINING | Internal ^{1,2} | Academic ² | Industry |
|---|-------------------------|-----------------------|----------|
| Minimal: Spheroid formation, Culture and Fixing in microfluidic device (2h30) | Free | Free | \$250 |
| Complete: Preparation of microfluidic devices, Microdissection (punch and loading of MDTs), Spheroid formation, Culture and Fixing in microfluidic devices (8 h in 3 sessions: 2 h, 4 h, 2 h) | \$350 | \$500 | |
| Paraffin embedding: including dehydration and sample alignment (1 day + 1-2 h the next day) | \$500 | \$750 | |
| Microfluidic device fabrication in PDMS (4 h) | \$200 | \$300 | |

¹ The internal price is only applicable when the service is paid via a CHUM internal account, unless previously approved by the CRCHUM finance service.

² Service and minimal training free of charge during the first two years of the Microfluidics core facility for internal and academic clients.

The prices are subject to change without notice.
