

POSTDOCTORAL FELLOW POSITION IN OCCUPATIONAL AND ENVIRONMENTAL EPIDEMIOLOGY

University of Montreal Hospital Research Center, Montreal (CRCHUM), Quebec

Start Date: November 1st, 2020 (negotiable); 2-year contract with the possibility of renewal

Posted: September, 2020

Description

A post-doctoral fellowship is available in a dynamic, rapidly expanding university-based research environment with a team of epidemiologists, biostatisticians and exposure experts. The core activity for this position relates to analysis of existing databases aimed at elucidating the role of occupational exposures in cancer etiology (Principle Investigator: Dr. Vikki Ho). Specifically, data from the Canadian Partnership for Tomorrow's Health and various case-control studies conducted in Montreal, Canada are available for exploitation. The Fellow will be expected to collaborate with other research staff to lead the statistical analyses and to prepare manuscripts for publications. There are also opportunities to collaborate on other research projects at various stages including grant application, study design, data analysis and manuscript writing.

Duration and Location of Appointment

The position is available for two years; applicants will be supported in their application to other sources of funding to extend their fellowship beyond two years. The stipend is \$42,500 (partially tax-exempt). The locale, Montreal, is the most cosmopolitan and affordable big city in North America.

Required Qualifications

Applicants must have completed a PhD in Epidemiology, Occupational Health or a closely related area. Candidates should have relevant experience in the area of environment and/or cancer epidemiology, have a good record of publication and show skills in advanced statistical programming with management of SAS, R or STATA. Fellows are required to apply for fellowship funding during the first year.

Required Documentation

A complete application must contain a cover letter including a summary of relevant experience to date and a CV.

Application Procedure

Interested candidates should email:
